**Public Service Company of Colorado;  
Notice of Availability of Final  
Environmental Assessment**

August 24, 1995.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) Regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47897), the Office of Hydropower Licensing has reviewed the application for a new license for the existing Georgetown Hydroelectric Project, located on the South Clear Creek in Clear Creek County, Colorado, near the city of Georgetown.

The Federal Energy Regulatory Commission and the U.S. Forest Service have prepared an Environmental Assessment (EA) for the project which analyzes existing and potential future environmental effects of the project. Our conclusion is that approval of the

project, with appropriate environmental protective or enhancement measures, would not be a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Public Reference Branch, Room 3104, of the Commission's offices at 941 North Capitol Street, N.E., Washington, D.C. 20426.
